Wilmer, B. C., Thursday, July 17, 1902.

\$2.00 Per Year.

DISTRICT NEWS

Happenings of General Local Interest— The Excursion

The contract for the painting of the Hospital was awarded Jan. Lambert. The Annual Races will be more interesting and amusing this year than ever.

The hot weather of the past week has made swimming the favorite pastime.

J. Lambert's fruit is proving a great crop this year. In fact encouraging reports are coming from ranchers all along the valley.

W. S. Santo has greatly improved his Canterbury store by painting the exterior, which is the nearest store in the whole district.

Proprietary mining, lumbering, stock-raising, ranching and gardening—what more can mortal man ask? We have it all in this district.

T. H. Taylor, P.L.S., has gone out to survey the World's Fair and Planning grounds for R. S. O'Leary, who will have them Crown granted.

Mrs. A. Hamilton and family left Canterbury last week for Nelson, where they will reside in future. Mr. Hamilton has accepted a position with the C.P.R.

Late deliveries to Fairmont state that Mr. S. Brewer's fruit trees are loaded with fruit, that will compare with anything they have seen anywhere in the world.

One of the heaviest thunder storms that has occurred for several years passed up the valley along the Selkirk on Monday night. No damage is reported.

Dave McLean and partners have been developing the Second Effort group of claims on Number Two creek for about five weeks. They came down the other day and report the showing greatly improved.

The men employed by the Government in repairing the Horse that creek road came down Monday night, having completed the work. They will start to work to repair Fly road from Spring creek to the S. Fork in a few days.

A number of Capt. F. E. Armstrong's friends are preparing to banquet him next Saturday at 8:00 p.m. in the Hotel Bristol, as a recognition of their appreciation of his enterprise in bringing the North Star through from Kootenay river.

LEAD QUEEN.

How the Prospector's Life is Made Easy Here.

Tom Brown, Sam Lee and Henry Kitching returned last week from Number Three creek, where they have been working on the Lead Queen and incidentally doing a little hunting and trapping. They brought down samples of the three lodes that traverse this group. One sample is very fine flinted silver, another carries good values in silver and lead and grey copper is clearly discernable. The third has not been assayed yet, but evidently carries good values. A lot of development work has been accomplished and if access was made the owners would ship. Monday they started for Fly creek where they will do several weeks work and will then return to further develop the Lead Queen. They brought down three bear skins and 25 martins. The skins were in very good condition and one black bear skin was the largest he has seen. While out they had plenty of fresh bear meat and the fur should bring a price that would give them skins and skins while out. Thus the prospector's life is made easy in the Windermere district.

A. Hume of Pirland has gone out on a business trip.

Mr. Thos. O'Brien came up from Golden last week to Fairmont.

The trail up Boulder creek is being cleaned out and repaired.

Mrs. Freeman of Windermere went to Golden last week. She has been quite ill for sometime.

Mrs. Pitts gave a pleasant ping pong party to her Windermere friends last Saturday afternoon.

How McKeenan has gone up Spring creek to do some work on the Shannock for Messrs. Gump and Scott.

Dennis service is held every Sunday evening in St. Peter's Church, Windermere, at 7:30 p.m. All are welcome.

Mrs. Sykes and her little boy arrived from Winnipeg on Monday's stage to visit Mrs. J. C. Pitts at Windermere.

Joe Fraser reported the K.C. mineral claim soaking fine. He sent 50 pounds of ore to the smelter last Sunday to have it tested.

Frank W. Thompson arrived from Fort Spokane last week and has since gone up Fly creek to start development work on his property.

The blasing out of the stumps around the Court House has greatly improved the appearance of the streets in that vicinity, although the reports started the natives.

W. B. Aird and partners have cut a good winter trail to the Hot Punch, on the Little North Fork of Fly. They have since gone up Datch creek to work their property up there.

Miss Olmstead has left Windermere for Golden, where she will take charge as housekeeper of the Kootenay House for Mr. Gordon. Miss Olmstead leaves a host of friends to regret her departure.

Rev. Mr. Faggar will conduct services every Sunday in Windermere at 11 a.m. at the Atholmer at 3 p.m., and at Wilmer at 7:30 p.m., excepting the 1st Sunday in each month, when he holds services at Galena. Everybody is welcome.

It has been definitely decided to give a ball in aid of the Windermere District Hospital in the Atholmer Hall next Tuesday evening, July 22nd. The funds raised will be used to complete the painting of the Hospital. Tickets are now offered for sale at \$1. The ladies of the district are requested to assist in supplying the supper.

A BIG STRIKE.

Three Feet of High Grade Ore on Outcrop.

M. P. McAndrew, of Eslo, who purchased the Outcrop and Washburn mineral claims last winter, evidently has struck a good thing. In company with Mr. Galy and W. White he came from Kootenay a few weeks ago, and these three practical miners have since been engaged in thoroughly developing the property. Mr. McAndrew came down last week en route to Eslo, leaving the other men to continue the work. He is a conservative man, but we have in our good acquaintance that he stated that the Outcrop lead had been stripped for 500 feet, showing from 2 to 3 feet of solid ore that will run from 200 to 500 ounces silver. And the Washburn shows about 16 inches of ore, running from 100 to 200 ounces, which is also stripped 500 feet. Mr. McAndrew is reported as saying that he will be anxious about now as to what to do with the property.

Subsides for Tin Outcrop.

Tim O'Connor is on sale at A. R. Yates Drug Store in Peterboro.

Hon. Mr. Wells is expected to arrive on the North Star Friday.

Mr. and Mrs. G. A. Starke made a trip to Golden Sunday, returning Tuesday.

Mr. Washburn received a shipment of fresh fruit Tuesday and will receive shipments by every boat hereafter.

There is a good opening for a first class general blacksmith in Wilmer. Every assistance and plenty of work will be given to a steady man. Apply to this office.

Capt. Armstrong has invited the members of the Golden Board of Trade to take a trip up the river Friday and to have a look over the district. Developments are awaited with interest, and they will be heartily received.

A jumping tournament is to be one of the attractions at the Annual Races. The ladies of the Windermere district have challenged the Golden Ladies and hope to make it a success. The ladies who will compete for the district are: Madeline J. Taylor, E. A. Smith, J. Balaban, W. Taiton, J. C. Pitts, W. P. Evans and G. Reider.

While Mrs. Harrison and Mrs. Chamberlain were driving last week their horse became frightened near Fly bridge. In endeavor to get out of the rig Mrs. Harrison fell, but did not think she was hurt very much and in the afternoon rode over to Mr. Thos. Martin's ranch and back a distance of about 17 miles. Three days later Dr. E. L. Dillit examined and found she had broken two ribs. Mrs. Harrison is now improving fast and will be around in about a week.

There has been considerable misapprehension regarding the telegraph line during the past week as the Kootenay Mail reported. Mr. Henderson, of the Works department, as saying it would be a telephone line. However, we have in our good authority that Hon. Mr. Ayer stated at Atholmer he had informed to the effect that it would be a telegraph line and that Mr. R. A. Boner of Canterbury has been appointed operator at Wilmer. Mr. Ayer completed the construction of the line Tuesday and left it to come yesterday morning to Golden. It has been found that while building the office will occupy, but when the instruments arrive that will be easily settled.

DIED SUDDENLY.

A Storm Passed Quietly Over the Great Divide.

"Andrew Strom is dead," was the unexpected news that quickly circulated Monday afternoon and much regret was expressed. He came down from the Paradise mine a week previous to his death and at first it was thought he was "loaded," but he had worked only ten weeks at the mine this could not be the cause and Dr. Ethel is not aware of the exact nature of the disease, yet, although every care was given him in the Hospital he seemed to give up, and when one young thought he was improving, his funeral took place on Tuesday and was largely attended. Because came from Sweden and his only relative in this country is a brother, who is also employed at the Paradise and who holds the leave of absence. The two brothers live in Golden for a time.

Golden Nuggets

(From Our Correspondent.)

Try Tim O'Connor for Job Printing. F. Stalker left Tuesday for Kault.

J. S. Gibb returned Wednesday from Vancouver.

Mrs. C. E. Hamilton has gone to Winnipeg on a visit to her home.

Messrs. O. D. Hart, M. Dillard and G. P. Wells left Tuesday for Lee River.

The excursion Thursday afternoon on the steamer North Star was a great success. The steamer was well crowded and left the wharf about 2 o'clock returning at 6. A July time was spent by all. The singing and cheering on the way home is something to be remembered, and where a "good time" is being had both the captain are sure to be in the midst of it. Another attraction was on ice cream boat, which was well patronized. The steamer is very easy running and very comfortable for passengers.

J. Howden of Beaver spent Sunday in town.

A. R. Yates of Wilmer has been in town the last week.

Our genial postmaster, Ty King, is a happy paper—it's a boy.

Hon. W. C. Wells arrived in Golden on Sunday from Victoria.

Mrs. F. B. Cony left Monday for Vancouver, and will shortly sail for Manila. The many friends of Mrs. Brownrigg will be pleased to hear of her arrival in town again, after an absence of about three years.

Mr. and Mrs. J. Robinson have a number of friends visiting them at present. Mrs. J. Robinson of Brampton, Ont., Mr. S. G. Smith of Toronto and J. W. Stewart and wife of Vancouver.

About thirty members of the Frazer Lodge of Golden left on Friday for Revelstoke to attend the Orange celebration on the 19th, returning on Sunday. Quite a number of citizens accompanied them. An enjoyable time was spent.

MINING RECORDS

Below we publish the mining records as entered on the books at the Wilmer mine office:

NOTATIONS.

June 25—Horned, on Copper creek, by J. C. Pitts, located June 11.

June 26—Last Chance, Mineral creek, by C. Brock, June 19.

Surprise, Mineral creek, John Weyer, June 25.

Mountain Goat, Mineral creek, John Hansen, June 21.

July 1—Thelma, Fly creek, C. D. Ellis, June 24.

July 2—Silver Crown, Tunnel creek, D. C. Fraser, June 20.

Yankee Girl, same, A. S. Wye, same, June 20, same, J. A. Stone, same.

Miss Spoke, same, Van Meter, same, Maple Leaf, same, John McInnes, same, Mail of Erin, same, H. Robinson, same, July 4—East Virginia, Horse Chief, C. J. Johnston, June 19.

West Virginia, same, F. C. Stickle, same, June 10.

July 10—Coronation, Fly creek, John Williamson, July 7.

H. B. Hamp and Silver Treasure, Taylor & W. Hayman and George Dougherty, July 3.

ASSAYS.

June 12—First Effort, Thos Brown and partners.

Lucky Strike, same.

June 18—Silver Queen, Ladybird and Trojan, by Wm. Walsh.

Humboldt and Hill Top, H. P. Johnson, July 1—Silver Queen, Trojan and Ladybird (each 2 years), W. J. Walsh.

July 2—Black Eagle No 1 and No 2 and Silver Hawk, P. McInnes.

Magnie, M. Lalman, Tominson, T. H. Taylor.

July 4—Iron Queen (3 years), Iron Queen, F. C. Stickle and partner, July 9—High Gate, C. Monroe.

TRANSFERS.

June 25—J. C. Pitts to C. T. Trower, 1/2 interest in Horned.

June 26—F. Hammann to M. Hansen, all in Silver Queen.

July 3—John Lake & Co. vs. Hoss, Wilmer, Miller and Hansen, no title to Silver

WRITE LETTER

A Scheme to Get Assistance in Securing a Tariff on Lead.

The following circular letter, which explains itself, has been issued to the business men throughout the Kootenay by the Nelson Board of Trade:

Nelson, B. C., June 25, 1902.

Dear Sir: Times are dull; business is not what it ought to be. You must clearly experience this. It is not, you at least see the evidence in your neighbor. Lack of business is due in very large measure to the depression in silver-lead mining. We tell you why silver-lead mining. Will you assist in removing the cause? You can help the good work in the following manner:

Write letters to each of the whole sale houses you deal with in eastern Canada and at the coast. Tell them that if the lead industry were flourishing you could have to double or triple your orders. Use the following information as a basis for your letter, explaining it in your own way, and ask them to pass their influence with their representative in the Dominion House to obtain a satisfactory measure of protection to the lead industry. We think this of the utmost importance.

Please note therefore:

(1) That the Canadian trade in the United States has practically ceased to buy Canadian lead and thus has restricted our output.

(2) The eastern Canadian market is supplied almost entirely with lead imported from Germany and Great Britain. Only a very little of Kootenay lead is comprised in their whole year's purchases.

(3) The duty on these importations is very small, and does not represent

enough to enable our western producers—where labor is high priced and living expenses—to compete the market.

(4) The bounty given by the Dominion government of 45 percent to encourage lead refining is practically useless without the imposition of a tariff on imported lead.

We therefore ask: A duty of 25 percent on importations of pig lead, and enough on lead products to induce their manufacture in Canada. The existing duty on pig lead from Great Britain is 10 percent and practically nil on lead products.

This would mean an immediate market of 20,000 tons of Kootenay pig lead and refined lead at a reasonable profit; the surplus would find its outlet as at present on the markets of the world.

Costs to the Canadian consumer could not be increased, as in many instances the lead bought in the east has been shipped from the Kootenay district to Great Britain or Germany, manufactured there, and then resold to this country.

Such is merely an outline of the facts. Should you require figures to support the secretary of the Nelson Board of Trade will have pleasure in supplying them.

We have it to your loyalty to adopt the suggestion we have made. This is no mere lead matter, but one of great interest to the whole of British Columbia, and also to Manitoba and the Northwest, as the Kootenay is the natural market for their products. We can all help. Will you do what you can.

This company is a kind of labor co-operative company and have relied the assistance of the Board of Trade. I believe. Now, I have asked members of this Board questions and they seem to know very little about the company they are assisting. Some of my fellow-workmen, I understand, have bought shares in the company and it seems like a good thing. A member here would know a good thing for his whole district and a neighborhood.

What I would like to know is, and others here ask the same questions, is the company essentially capitalist by laboring men and is it incorporated? In fact, I would like to see a prospectus of the company and don't think that is asking too much. The company is going to be developed claims, erect a smelter, install a electric light plant and a newspaper, and, I suppose, a co-operative store eventually.

Now, Mr. Editor, perhaps you will be good enough to enlighten me, and others on this matter. If you will send me a prospectus and a newspaper, and a co-operative store eventually.

Yours Sincerely,
L. L. L.

Editor of The Outcrop.

Dear Sir:—I have just been looking at the article in the Outcrop of a canal from the Columbia river to a point where the people of Wilmer can get their supplies in high water, as you say it is next to impossible to get to the landing.

Would it not be in the interest of the community at large for the Government to purchase the township of Wilmer?

Then they could have it moved to a national situation, and even the Government funds for necessary work would be made the whole country and no private to reside company.

If the Government adopted this plan they would have saved a large sum of money spent in building a canal connected in connection with Wilmer which was not a necessity.

Yours Sincerely,
A. L. L.

Windermere District, July 10, 1902.

[Ed.—We know very little of the company "Labor" refers to, but let it apply to the secretary or president, he will doubtless give his candidly stated. The company representing its capital in Golden and if shares are sold and money asked the officers will voluntarily give much information. These columns are open to the company to make their position clear if their officers are so disposed.]

The Big Horse ranch will be sold on July 10th.

King Edward must have heard of the Annual Races in this district, and that they are on all August 18th and 19th, but he has decided that he will be crowded out.

W. P. Evans,

Publisher and Proprietor.

WILMER, B.C., THURSDAY, JULY 17, 1902.

Be true to yourself, your fellow-man, your town and your district, and you will have no time to waste or to go into trouble. When you have done all you can for your self help your brother and your town and your district. If you do you will have no time to knock anyone or any thing—no not even a 80-year cayuse.

The confirmation of the rumor of the sale in London of the Kootenay Central railway charter to say the least looks encouraging and it is to be hoped the promoters will be successful in establishing the refineries and reduction works upon which the construction of the road is contingent. There are those who have their doubts as it was generally believed that this charter expired last May, owing to construction not then being commenced. However, it now appears that the charter is good for all time, although it certainly did not seem to read that way when it passed the Legislature.

No one, however, will quibble over this if the road is built, as it will bring prosperity to this valley and the Kootenay, by opening up a magnificent stretch of country that cannot be excelled anywhere, either in mineral or fertile soil.

The B. C. Mining Exchange published in Vancouver devotes considerable space to this and other districts in Kootenay, but we would remind it that the Paradise, Red Line, and other mines here are 100 miles from those in South East Kootenay. Many other papers might as well take a tumble at the same time. The Exchange prints the following which is worth remembering:

"A subscriber writes asking whether he should pay an assessment, the third within a few months, upon shares purchased in a mining company whose directors had held out hopes of early dividends. He does not doubt the integrity of the directors, but fears they have not the knowledge or experience necessary to make a success of the mine, and hints hesitantly that mining is at best a very risky venture.

"As to this particular instance we cannot pretend to pass an opinion, knowing nothing of the interested parties.

"As to mining in general, however, we must remind our correspondents that the mineral industry has created more wealth and has made more men than any other, and like every business undertaking is largely dependent upon the knowledge and skill of those engaged in it. Indeed, it is one respects the man who engages in mining must have a wider scope of knowledge and a more thorough training for his business than any other.

"He must first of all have some knowledge of geology, so that he may not waste time and money in a formation in which mineral does not exist. Second he must be a mineralogist, so that he may recognize the rocks and gangues which accompany the precious metals. Third, he must be a metallurgist that he may equip his mine with the best machinery and see that it is properly set up and operated. Fourth, he must be a chemist in order to adopt the most suitable and economical method of treatment. Fifth he must be a good business man in order to keep watch of expenses and take advantage of market conditions. Sixth, he must be a manager of men and a good judge of character, in order that he may not be tied up by strikers, and may make the most of his labor and lastly, he must be continually alive to every condition of his local surroundings, or else he must have the money and intelligence to line the right mine to fill all these requirements.

"That 'Fortune is a flake of gold' and 'Fortune is a flake of gold' is a saying which is true in the case of the man who thinks he is sure to win is the one who loses."

The first consignment of pig lead has been made from the Trail refinery to Winnipeg and shipments will continue regularly to eastern Canadian ports. In addition to taking the first shipment of pig lead refined in Canada, it is also the first produced on a commercial scale by electrolysis. It is believed that this process, the use of which is a universal standard, will be most fully realized in the production of a lead of the highest quality, and it is the opinion of the plant that the construction of a large refinery by the Trail people, and it is understood that plans are being prepared for a plant which will turn out 50 or 60 tons of pig lead daily.

While not gold that glitters, sometimes it is pretty.

In every mining community there are men who are unable to accomplish anything themselves, and whose mission seems to be to prevent others from carrying out deals that would be beneficial to the community. They are of the dog-in-the-manger type and are a detriment to the best interests of the community in which they reside. We have frequently referred to these cattle before in these columns and intend to fasten them to a trap if possible; if it is not possible we hope the warm spot referred to here will be a help to them.

When a negotiation is in progress for the sale of a property they seem to consider that its accomplishment would inflict a personal injury on them and they, therefore, do everything in their power to prevent its being carried out. In some cases they have an insane idea that if they can't prevent a sale that they will be able to get the handling of the property or make a sale themselves, and in others their motives are simply malicious and a desire to injure those who might possibly be more successful than they.

In mining camps perhaps this is known as "kno-shakes" or "buck-uppers" and that they are a universally despised class is no secret, for they succeed occasionally in inflicting considerable damage on their misguided efforts to shape things to suit their distorted ideas and selfishly target even with overkill in general. They are the scoundrels of the mining world and as such they are to be avoided at every turn of right the circle and left the circle of every man who is not a fool.

WILMER

(Formerly Peterborough),

East Kootenay, B. C.

The Trade Centre of the Upper Columbia Valley.

Flanked by the Rocky Mountains to the east and the great
mineral zone of the Selkicks to the west.

Government roads radiate from Wilmer to the Lake and these Trail
Mining Camps and all points of importance in the Windermere Mining Division,
including the Paradise and Red Line mines, and the beautiful park-like ranching
lands of the valley.

Although a new town Wilmer has made much progress. Among
its institutions may be mentioned the court house at which court is held for the
district is held periodically, a public school, a hospital supported by the district,
postal money order office, newspaper, drug store, poultry and live stock, dog
store, general store, saw mill, livery stable, hotels, etc. The Presbyterian and
Roman Catholic denominations are represented. It is the headquarters from
which the Paradise and Red Line mines are operated.

A telegraph office connecting with Golden will be opened shortly.

The great extent of high grade mineral and ranching country tributary
to Wilmer ensure for it a rapid growth.

Stageboats leave Golden on the Canadian Pacific Railway every
Tuesday and Friday arriving at Wilmer the same day. Stage connection weekly
with Golden and Fort Steele.

A full number of lots are now on the market. For further particulars

WHEELER, C.

the world has not the interest to be
explaining. If a worker is left
unemployed, what is his responsibility
involving and there are plenty for
his place. — Thomas Carlyle

The world is a vast and mar-
velous, scrambling sea for what
gets, scrambling along with
others in the same and more
work at this is what he does
is equal of being it may help
and after scatter to slavery also.
The whole nation is found to
be a very big, open sea of
falls the rest must either let his
fish alone with them as dead a
... In order that men may be
support themselves when they at
their strength must be opened
while they are young; a
state should see to this — get
their health to be broken by
labor for want of knowledge,
I believe most firmly that as the
external punishment get familiar
still more and more can one
real and the individual system
... A government which has
the discipline of the nation.

STRIKE OVER AT MICHEL.

Fernie Miners Still Out But all are Peaceable.

P. C. Collin Cameron writes a friend in Wilmer from Michel, B.C., under date of July 16th, as follows:
"I am at present stationed at Michel in charge of a number of special constables. The strike was on here until yesterday evening, when there was a mass meeting called of the Union and non-union miners. A great many spoke in favor of the strike and a great many against it; in fact the majority were against the strike. However, they took a secret ballot on it and 96 voted to go to work and 17 against; thus the majority was 69, and the strikers agreed to abide by the decision. Consequently the strike is off here and nearly all the men went to work this morning at 7 o'clock. I was at the tunnel to see that everything was all right. I do not know how long I will be here, but it is likely at least another week.
"The Fernie strikers are still out and the mine entirely closed down. Chief Constable Bullock Webster is in Fernie with ten regular constables manning the town night and day, but the miners are very quiet and peaceable."

Don't forget the Hospital
Ball Tuesday evening.

NOTICE OF DISSOLUTION.

Notice is hereby given, that the partnership heretofore subsisting between the undersigned, William Chamberlain and George Chamberlain, as hotelkeepers and meat dealers, under the firm name of "Chamberlain Bros." at Wilmer, B.C., has this day been dissolved by mutual consent. All debts owing the said partnership are to be paid to William Chamberlain, who will continue the business and discharge all the partnership liabilities.

Dated at Wilmer, B.C., July 7th, 1902.

Witness: Wm. Chamberlain
Hugh Macdonald, J. G. Chamberlain.

MORTGAGE SALE.

Under and by virtue of the power of sale contained in a certain Gtitled Mortgage made by Colin C. Mackay and Rosina Mackay to Harold E. Forster, dated the 11th day of November, 1900, to secure the sum of \$5000.00 with interest thereon at the rate of ten per centum per annum, (default having been made in the payment of the said principal sum and interest), there will be offered for sale by public auction at Big House Ranch, near Windermere, B.C., on Wednesday, the 24th day of July, A.D. 1902, at the hour of 1 p.m., the following property, namely: 5 horses, 1 cow, 3 ponies, 1 binder, 2 wagons, 2 sets double harness, Harrocks 1 cultivator, 1 set of harrows, 1 coal drill, 1 straw cutter, 1 lawnmower, 1 feed bucket, 1 grind stone, 1 set of scales, banners and hay forks. And at Wilmer, B.C., (next noon) on Thursday, the 25th day of July, A.D. 1902 at the hour of 1 p.m., the following property, namely: about 25 head of cattle, 6 horses, 1 short horn bull, and 1 pig.

For further particulars address the undersigned at Wilmer, B.C.

Alex. Remick,

Build for H. E. Forster.

Dated this 15th day of July, 1902.
